LETTER FROM THE CHAIRMAN

Operating with original heart, shouldering responsibility as mission

Year 2019 marks the 70th anniversary of the founding of People's Republic of China which also represents a crucial year for us as we endeavor to achieve the First Centenary Goal of building a moderately prosperous society in all respects. As an important part of the China Energy Group's new energy sector, Longyuan Power follows the guidance of Xi Jinping Thought on Socialism with Chinese characteristics for a New Era and upholds the spirit of the Nineteenth National Party Congress and Plenary Sessions of the 19th CPC Central Committee. Under the leadership of China Energy Group's Leading Party Group and the company's board of directors, Longyuan will conscientiously implement the energy strategy of Four Revolutions and One Cooperation, adhere to and strengthen the party's overall leadership. Operating with original heart and shouldering corporate social responsibility as mission, Longyuan fully implements the overall strategy of "One Goal, Three Drives, Five Transformations, Seven First-Class" to win a good start for building a world-class new energy corporation with global competitiveness. Longyuan sees a sound and steady improvement in operation and ranks as Global Top 500 New Energy Enterprises for seven consecutive years.

In terms of fulfilling corporate social responsibility, Longyuan Power strengthens responsibility management and shapes a responsibility culture. Longyuan carries out economic responsibilities for value enhancement; it shoulders social responsibilities for harmonious development; it performs environmental responsibilities for green energy; and it effectively integrates social responsibility into the company's strategy and operational practice. Longyuan fully enhanced its comprehensive value creation, business operation transparency and brand influence and continued to consolidate its position as the world's largest wind power operator with remarkable responsibility performance, and won the "Overseas Corporate Responsibility Model Enterprise Award".

The year 2020 marks the end of China's efforts to build a moderately prosperous society in all respects and the 13th Five-year plan. Longyuan people will rally closely around the Party Central Committee with Comrade Xi Jinping at its core, uphold and strengthen the overall leadership of the Party, firmly establish a new development concept. Under the strong leadership of the China Energy Group Party Group, we will bear in mind the mission and shoulder responsibility; we will never forget why we start and continue to proceed; we will constantly endeavor to build a world-class new energy company with global competitiveness, to maximize the company's comprehensive value of economic, social and environmental performance, and to make greater contribution on China Energy Group's goal of building a world-class model corporation and on realizing the Chinese dream of ecological civilization!

COMPANY PROFILE

Founded in 1993, Longyuan Power was subordinated to the Ministry of Energy of the People's Republic of China. Now as a part of the China Energy Group, it is the earliest specialized company to develop wind power in China, after being affiliated to Ministry of Electric Industry of PRC, the State Power Corporation of China and China Guodian Corporation. In 2009, Longyuan Power conducted an initial public offering of H shares for listing on the Main Board of Hong Kong Stock Exchange, making it the first company of China new energy listed in stock market. Today, Longyuan Power has developed into a large-scale comprehensive power group focusing on new energy with more than 300 wind farms as well as photovoltaic, biomass, tidal, geothermal and thermal power generation projects, covering its business domestically in 32 provinces and cities, and overseas in Canada and South Africa.

As of the end of 2019, the installed capacity of Longyuan Power holdings reached 22,157 megawatts, of which the wind power was 20,032 megawatts, maintaining its lead in world's largest wind power operators. Based on good business performance, the company has been awarded prizes and honors such as the "National Civilized Unit", "National May 1st Labor Award", 2013-2014 "Environmental Protection New Energy Enterprise Award" for the Hong Kong Stock Market Ranking of Mainland Chinese Enterprises, "Best Listed Company in Corporate Governance", "The Most Valuable Listed Company during the 13th Five-Year Plan period", "Listed Company with Best Brand Value" and "Best Listed Company". It has been listed the "Global Top 500 New Energy Enterprise" for seven consecutive years.
