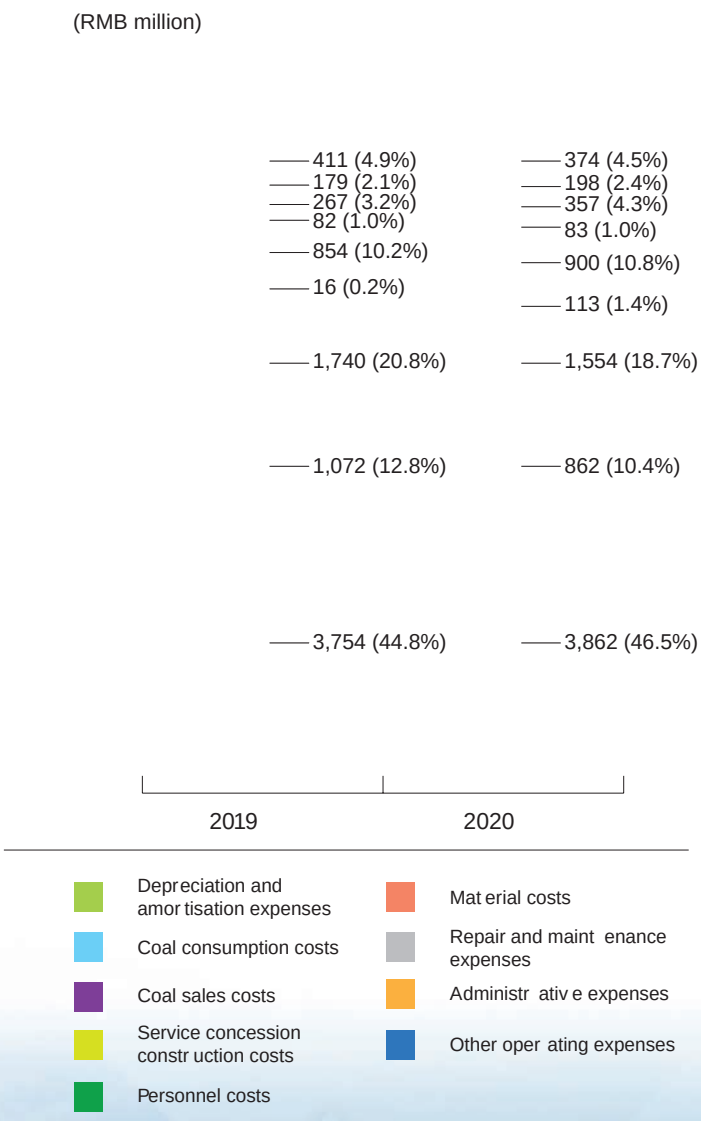
Operating expenses

Operating expenses of the Group amounted to RMB8,303 million in the first half of 2020, representing a decrease of 0.9% as compared to RMB8,377 million in the corresponding period of 2019, primarily due to: (1) a decrease of RMB210 million in coal consumption costs, an increase of RMB31 million in material costs and a decrease of RMB186 million in coal sales costs in the coal power segment; (2) an increase of RMB421 million in the depreciation and amortisation expenses, service concession construction costs, personnel costs, repair and maintenance expenses and other operating expenses in the wind power segment; (3) a decrease of RMB30 million in material costs and an occurrence of RMB16 million in donation outlay in other segments; and (4) a decrease of RMB121 million in external EPC costs in the period.

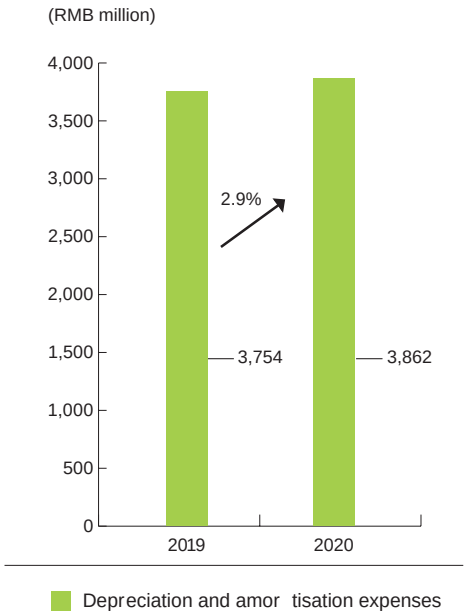
Operating expenses items and their respective proportions are set out in the diagram below (for the six months ended 30 June):



Depreciation and amortisation expenses

Depreciation and amortisation expenses of the Group amounted to RMB3,862 million in the first half of 2020, representing an increase of 2.9% as compared to RMB3,754 million in the corresponding period of 2019, primarily due to: (1) an increase of RMB121 million or 3.5% in depreciation and amortisation expenses in the wind power segment over the corresponding period of 2019 as a result of the effect of expansion in the installed capacity of wind power projects; and (2) a decrease of RMB14 million or 12.3% in depreciation and amortisation expenses in other segments over the corresponding period of 2019.

Depreciation and amortisation expenses are set out in the diagram below (for the six months ended 30 June):



Coal consumption costs

Coal consumption costs of the Group amounted to RMB862 million in the first half of 2020, representing a decrease of 19.6% as compared to RMB1,072 million in the corresponding period (i)0.5 (7p.o)1d(w)0e8 Tp1ion)

Coal sales costs

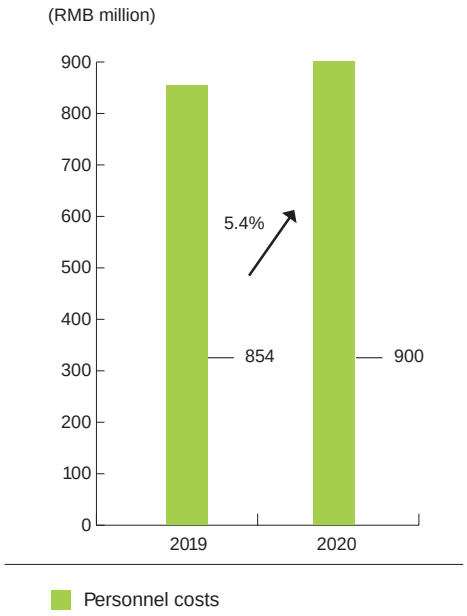
Coal sales costs of the Group in the first half of 2020 amounted to RMB1,554 million, representing a decrease of 10.7% as compared to RMB1,740 million in the corresponding period of 2019, which was primarily due to a decrease of approximately 5.0% in the sales volume of coal in the first half of 2020 as well as a decrease of approximately 6.0% in the average procurement price of coal.

Coal sales costs are set out in the diagram below (for the six months ended 30 June):

Personnel costs

Personnel costs of the Group amounted to RMB900 million in the first half of 2020, representing an increase of 5.4% as compared to RMB854 million in the corresponding period of 2019, which was primarily due to: (1) an increase in headcounts as a result of expansion in the installed wind power capacity; (2) an increase in salary and benefits of staff; and (3) the fact that a portion of the personnel costs were expensed instead of being capitalised as more projects commenced operation.

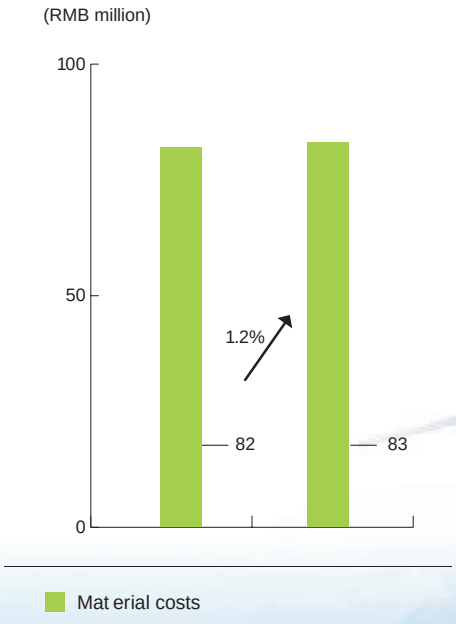
Personnel costs are set out in the diagram below (for the six months ended 30 June):



Material costs

Material costs of the Group amounted to RMB83 million in the first half of 2020, representing an increase of 1.2% as compared to RMB82 million in the corresponding period of 2019, which was primarily due to: (1) an increase in material procurement with the growth of the sales of coal power by-products of the coal power segment; and (2) a decrease of material consumption as a result of reducing the biomass power generation.

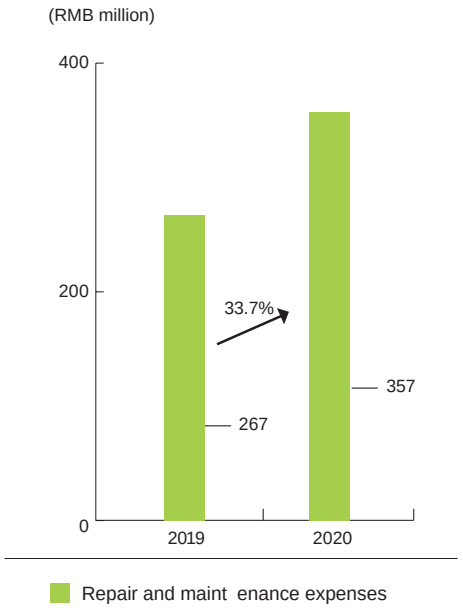
Material costs are set out in the diagram below (for the six months ended 30 June):



Repair and maintenance expenses

The repair and maintenance expenses of the Group amounted to RMB357 million in the first half of 2020, representing an increase of 33.7% as compared to RMB267 million in the corresponding period of 2019, primarily due to an increase in the installed capacity of the wind power segment and an increase in the generating units after the warranty period.

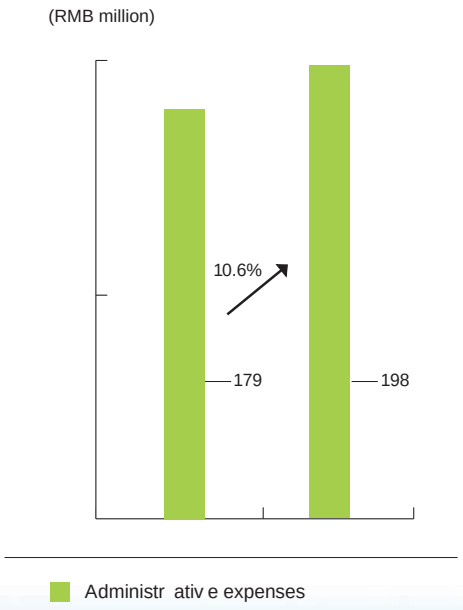
Repair and maintenance expenses are set out in the diagram below (for the six months ended 30 June):



Administrative expenses

Administrative expenses of the Group amounted to RMB198 million in the first half of 2020, representing an increase of 10.6% as compared to RMB179 million in the corresponding period of 2019, which was primarily due to an increase in the expenses including consulting fees, taxes, utilities and repair costs with the growth of the Group's business.

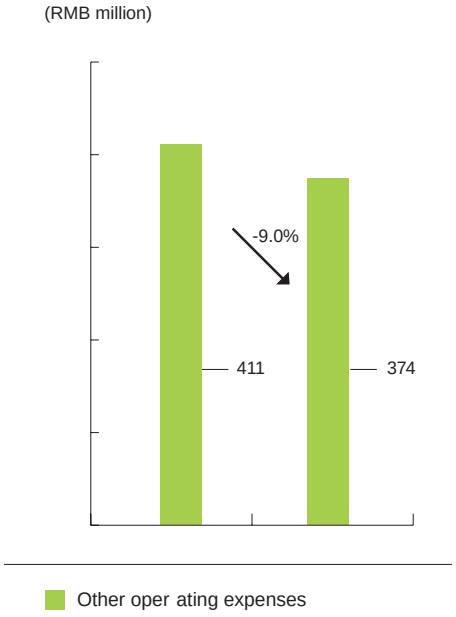
Administrative expenses are set out in the diagram below (for the six months ended 30 June):



Other operating expenses

Other operating expenses of the Group amounted to RMB374 million in the first half of 2020, representing a decrease of 9.0% as compared to RMB411 million in the corresponding period of 2019, which was primarily due to a decrease in the EPC costs arising from the provision of external EPC services by the Group.

Other operating expenses are set out in the diagram below (for the six months ended 30 June):



Operating profit

In the first half of 2020, the operating profit of the Group amounted to RMB6,338 million, representing an increase of RMB222 million or 3.6% as compared to RMB6,116 million in the corresponding period of 2019, which was primarily due to: (1) an increase of RMB345 million in operating profits of wind power segment with the growth of electricity sales and average sale price of electricity in the wind power segment; (2) a decrease of RMB73 million in operating profits of coal power segment as a result of the decrease f7qtilisrationhourts of coa

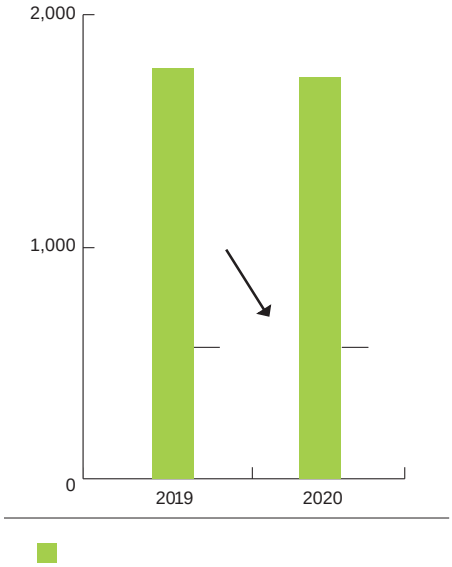
Net finance expenses

Net finance expenses of the Group amounted to RMB1,732 million in the first half of 2020, representing a decrease of RMB41 million or 2.3% as compared to RMB1,773 million in the corresponding period of 2019, which was primarily due to: (1) a decrease in average interest rate which leads to a reduced amount of RMB108 million in interest expenses in the first half of 2020 as compared to the corresponding period of 2019; (2) a decrease of RMB3 million in the Group's net foreign exchange loss in the first half of 2020 as compared to the corresponding period of 2019; (3) an increase of RMB39 million in loss from changes in fair value of the interest rate swap contracts in the first half of 2020 as compared to the corresponding period of 2019; (4) an increase of RMB15 million in charges in the first half of 2020 as compared to the corresponding period of 2019; (5) an increase of RMB17 million in the unrealized profits recognized for trading securities held in the first half of 2020 as compared to the corresponding period of 2019; and (6) a decrease of RMB33 million in interest income on financial assets and dividend in the first half of 2020 as compared to the corresponding period of 2019.

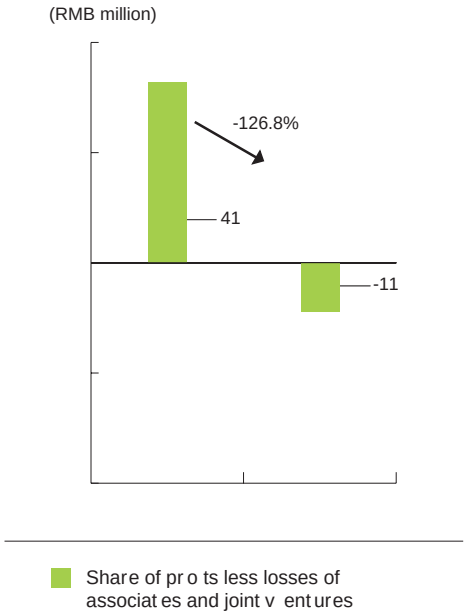
Net finance expenses are set out in the diagram below (for the six months ended 30 June):



Share of profits less losses of associates and joint ventures

The Group's share of profits less losses of associates and joint ventures amounted to RMB-11 million in the first half of 2020, representing a decrease of RMB52 million or 126.8% as compared to RMB41 million in the corresponding period of 2019, which was primarily due to the year-on-year significant decline in the net profit of Guodian United Power Technology Co., Ltd. (7 e L ¥ b ¦ " Þ " ® !) during the first half of 2020.

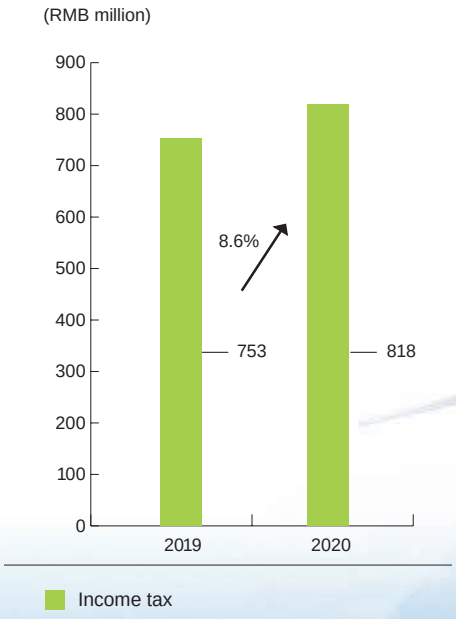
Share of profits less losses of associates and joint ventures is set out in the diagram below (for the six months ended 30 June):



Income tax

In the first half of 2020, the income tax of the Group amounted to RMB818 million, representing an increase of 8.6% as compared to RMB753 million in the corresponding period of 2019, which was mainly due to: (1) a year-on-year increase of 4.8% in profit before tax in the first half of 2020; and (2) a higher tax rate in the first half of 2020 as compared to that in the corresponding period of 2019 as a result of the end of tax exemption period for certain wind power projects.

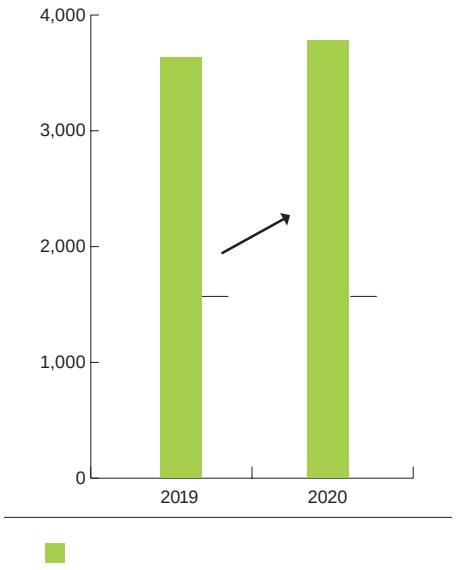
Income tax is set out in the diagram below (for the six months ended 30 June):



Net profit

In the first half of 2020, the net profit of the Group amounted to RMB3,776 million, representing an increase of 4.0% as compared to RMB3,632 million in the corresponding period of 2019, which was mainly due to the increase in net profit of wind power segment.

Net profit is set out in the diagram below (for the six months ended 30 June):



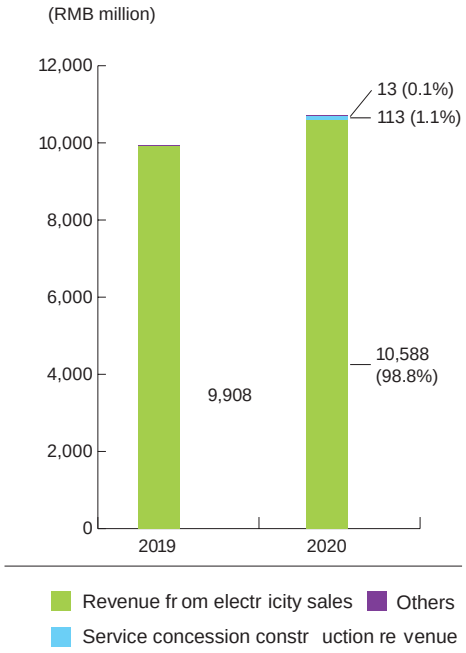
Segment results of operations

Wind power segment

Operating revenue

In the first half of 2020, the operating revenue of the wind power segment of the Group amounted to RMB10,714 million, representing an increase of 7.9% from RMB9,931 million in the corresponding period of 2019, primarily due to an increase in revenue from electricity sales as a result of growing electricity sales of wind power segment caused by an increase in its installed capacity and average utilisation hours.

Operating revenue in the wind power segment and proportions are set out in the diagram below (for the six months ended 30 June):



Coal power segment

Operating revenue

In the first half of 2020, operating revenue of the coal power segment of the Group amounted to RMB3,330 million, representing a decrease of 11.3% as compared to RMB3,753 million in the corresponding period of 2019, primarily due to: (1) a decrease of RMB207 million in electricity sales revenue of coal power segment as affected by the decrease in electricity sales in the first half of 2020; and (2) a decrease of RMB188 million in revenue of coal sales resulting from the combined impact of the decline in sales volume of coal and a decrease in unit selling price of coal.

Operating revenue of the coal power segment and proportions are set out in the diagram below (for the six months ended 30 June):

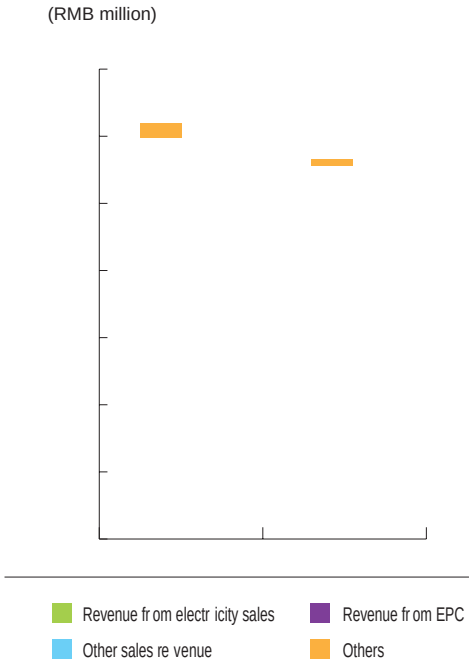
Operating revenue

In the first half of 2020, the operating revenue of other segments of the Group amounted to RMB566 million, representing a decrease of 8.6% as compared to RMB619 million in the corresponding period of 2019, which was mainly attributable to a decrease of RMB55 million in revenue from electricity sales as compared to that in the corresponding period of 2019 as a result of the decrease in sales volume of electricity from biomass and PV power.

Operating revenue of other segments and proportions are set out in the diagram below (for the six months ended 30 June):



Assets and liabilities

As at 30 June 2020, total assets of the Group amounted to RMB165,576 million, representing an increase of RMB8,773 million as compared with total assets of RMB156,803 million as at 31 December 2019. This was primarily due to:

(1) an increase of RMB6,620 million in current assets including trade and bills receivables; and

(2) an increase of RMB2,153 million in non-current assets including property, plant and equipment.

As at 30 June 2020, total liabilities of the Group amounted to RMB102,456 million, representing an increase of RMB6,308 million as compared to total liabilities of RMB96,148 million as at 31 December 2019. This was primarily due to:

(1) a decrease of RMB6,630 million in non-current liabilities including long-term borrowings; and

(2) an increase of RMB12,938 million in current liabilities including short-term borrowings.

As at 30 June 2020, equity attributable to equity holders of the Company amounted to RMB54,883 million, representing an increase of RMB1,960 million as compared with RMB52,923 million as at 31 December 2019, which was mainly earnings from business in the period.

INDEPENDENT REVIEW REPORT

SCOPE OF REVIEW

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410 *Review of Interim Financial Information Performed by the Independent Auditor of the Entity* issued by the Hong Kong Institute of Certified Public Accountants. A review of interim condensed consolidated financial statements consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the interim condensed consolidated financial statements as at 30 June 2020 are not prepared, in all material respects, in accordance with IAS 34.

NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Expressed in thousands of Renminbi)

1 PRINCIPAL ACTIVITIES

China Longyuan Power Group Corporation Limited (the "Company") and its subsidiaries (the "Group") are principally engaged in wind and coal power generation and sale, coal trading and other related businesses in the People's Republic of China (the "PRC").

The Company's parent and ultimate holding company is CHN Energy, which is a state-owned enterprise established in the PRC.

2 BASIS OF PREPARATION OF THE FINANCIAL REPORT

These interim financial statements have been prepared in accordance with IAS 34 *Interim Financial Reporting.* They were authorised for issuance by the board of directors of the Company on 11 August 2020.

The interim financial statements have been prepared assuming the Group will continue as a going concern notwithstanding the fact that the Group had net current liabilities as at 30 June 2020 amounting to RMB26,827,110,000. The directors of the Company are of the opinion that, based on a review of the forecasted cash flows of the Group, the unutilised banking facilities and the unutilised credit lines with banks as at 30 June 2020, the Group will have necessary liquid funds to finance its working capital and capital expenditure requirements within the next twelve months.

The preparation of an interim financial statements in conformity with IAS 34 requires management to make judgements, estimates and assumptions that affect the application of policies and the reported amounts of assets and liabilities, income and expenses on a year to date basis. Actual results may differ from these estimates.

This interim financial statements contain condensed consolidated financial statements and selected explanatory notes, and should be read in conjunction with the Group's annual consolidated financial statements for the year ended 31 December 2019. The notes include an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group since the 2019 annual financial statements. The interim condensed consolidated financial statements and notes thereon do not include all of the information required for a full set of financial statements prepared in accordance with International Financial Reporting Standards ("IFRSs").

3 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

(a) New Standards, Interpretations and Amendments

The accounting policies adopted in the preparation of the interim condensed consolidated financial information are consistent with those applied in the preparation

3 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (CONTINUED)

(a) New Standards, Interpretations and Amendments (Continued)

II Amendments to IFRS 7, IFRS 9 and IAS 39 address the effects of interbank offered rate reform on financial reporting. The amendments provide temporary reliefs which enable hedge accounting to continue during the period of uncertainty before the replacement of an existing interest rate benchmark. In addition, the amendments require companies to provide additional information to investors about their hedging relationships which are directly affected by these uncertainties. The amendments did not have any significant impact on the financial position and performance of the Group.

III Amendment to IFRS 16 provides a practical expedient for lessees to elect not to apply lease modification accounting for rent concessions arising as a direct consequence of the COVID-19 pandemic. The practical expedient applies only to rent concessions occurring as a direct consequence of the COVID-19 pandemic and only if (i) the change in lease payments results in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change; (ii) any reduction in lease payments affects only payments originally due on or before 30 June 2021; and (iii) there is no substantive change to other terms and conditions of the lease. The amendment is effective retrospectively for annual periods beginning on or after 1 June 2020 with earlier application permitted. The amendments did not have any significant impact on the financial position and performance of the Group.

IV Amendments to IAS 1 and IAS 8 provide a new definition of material. The new definition states that information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements. The amendments clarify that materiality will depend on the nature or magnitude of information. The amendments did not have any significant impact on the Group's interim condensed consolidated financial information.

3 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (CONTINUED)

(b) Accounting Judgments and Estimates

The preparation of the interim condensed consolidated financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing the interim condensed consolidated financial statements, except for the changes of useful lives and residual values of items of property, plant and equipment which were explained in note 12, the other significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that were applied to the annual consolidated financial statements for the year ended 31 December 2019.

4 SEGMENT REPORTING

The Group manages its businesses by divisions, which are organised by types of business. Consistent with the way in which information is reported internally to the Group's most senior executive management for the purposes of resource allocation and performance assessment, the Group has presented the following reportable segments:

– Wind power: this segment constructs, manages and operates wind power plants and generates electric power for sale to external power grid companies.

– Coal power: this segment constructs, manages and operates coal power plants and generates electric power for sale to external power grid companies and coal trading business.

The Group combined other business activities that are not mentioned above in "All others". Revenue included in this category is mainly from the manufacturing and sale of power equipment, the provision of consulting services, maintenance and training services to wind power plants, and other renewable power generation and sale.

4 SEGMENT REPORTING (CONTINUED)

(a) Segment results

In accordance with IFRS 8, segment information disclosed in the interim financial statements have been prepared in a manner consistent with the information used by the Group's senior executive management for the purposes of assessing segment performance and allocating resources between segments. In this regard, the Group's senior executive management monitors the results attributable to each reportable segment on the following bases:

Revenue and expenses are allocated to the reportable segments with reference to sales generated by those segments and the expenses incurred by those segments or which otherwise arise from the depreciation or amortisation of assets attributable to those segments. Segment revenue and expenses do not include share of profits less losses of associates and joint ventures, net finance expenses, service concession construction revenue and cost and unallocated head office and corporate expenses.

4 SEGMENT REPORTING (CONTINUED)

(a) Segment results (Continued)

The measure used for reporting segment profit is the operating profit. Information regarding the Group's reportable segments as provided to the Group's most senior executive management for the purposes of resource allocation and assessment of segment performance for the six months ended 30 June 2020 and 2019 is set out below:

(c) Nature and purpose of reserves (Continued)

(ii) Statutory surplus reserve

According to the Company's Articles of Association, the Company is required to transfer 10% of its net profit as determined in accordance with the PRC Accounting Rules and Regulations to its statutory surplus reserve until the reserve balance reaches 50% of the registered capital. The transfer to this reserve must be made before the distribution of a dividend to equity holders. This reserve fund can be utilised in setting off accumulated losses or increasing capital of the Company and is non-distributable other than in liquidation.

(iii) Exchange reserve

The exchange reserve comprises all foreign exchange differences arising from the translation of the financial statements of operations that have functional currencies other than the RMB and the foreign exchange differences on the net investment in foreign operations of the Group.

(iv) Fair value reserve

The fair value reserve comprises the cumulative net change in the fair value of equity investments at fair value through other comprehensive income (income tax exclusive) held at the end of the reporting period.

On 17 November 2017, the Company issued a perpetual medium-term note amounting

24 FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS

(a) Financial instruments carried at fair value

Fair value hierarchy

The following table presents the fair value of the Group's financial instruments measured at the end of the reporting period on a recurring basis, categorised into the three-level fair value hierarchy as defined in IFRS 13*Fair Value Measurement*. The level into which a fair value measurement is classified is determined with reference to the observability and significance of the inputs used in the valuation technique as follows:

- Level 1 valuations: Fair value measured using only Level 1 inputs (i.e. unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date).

- Level 2 valuations: Fair value measured using Level 2 inputs (i.e. observable inputs which fail to meet the criteria of Level 1, and not using significant unobservable inputs). Unobservable inputs are inputs for which market data are not available.

- Level 3 valuations: Fair value measured using significant unobservable inputs.

(a) Financial instruments carried at fair value (Continued)

Fair value hierarchy (Continued)

During the six months ended 30 June 2020, there were no transfers between Level 1 and Level 2, or transfers into or out of Level 3 (six months ended 30 June 2019: nil). The Group's policy is to recognise transfers between levels of the fair value hierarchy as at the end of the reporting period in which they occur.

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values of those financial assets and liabilities measured at fair value:

The fair value of interest rate swap contracts in Level 2 is determined by discounting the contractual fixed interest rate and deducting the forward Johannesburg Interbank Agreed Rate ("JIBAR"). The discount rate used is derived from the JIBAR swap yield curve as at the end of the reporting period.

24 FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS (CONTINUED)

(a) Financial instruments carried at fair value (Continued)

Fair value hierarchy (Continued)

The Group invests in unlisted investments, which represent wealth management products issued by banks in Mainland China. The Group has estimated the fair value of these unlisted investments by using a discounted cash flow valuation model based on the market interest rates of instruments with similar terms and risks.

The Group entered into securitisation transactions whereby it transferred trade receivables on tariff premium of renewable energy (the "Transferred Financial Assets") to unrelated third parties and derecognised the Transferred Financial Assets. The Group endorsed and factored a significant part of its bills receivables in its normal course of business. The Group managed its trade and bills receivables which generated cash flows resulting from both collecting contractual cash flows and selling the financial assets during the current year. Therefore, the Group measures trade and bills receivables at fair value through other comprehensive income. The fair values of trade and bills receivables were measured using the discounted cash flow model. The model incorporates various market observable inputs including the annualised yields of similar securitisation products and interest rate curves. The carrying amounts of trade and bills receivables are the same as their fair values.

24 FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS (CONTINUED)

(a) Financial instruments carried at fair value (Continued)

Fair value hierarchy (Continued)

The fair values of listed equity investments are based on quoted market prices. The fair values of unlisted equity investments designated at FVOCI have been estimated using a market-based valuation technique based on assumptions that are not supported by observable market prices or rates. The valuation requires the directors to determine comparable public companies (peers) based on industry, size, leverage and strategy, and to calculate an appropriate price multiple, such as enterprise value

24 FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS (CONTINUED)

(a) Financial instruments carried at fair value (Continued)

Fair value hierarchy (Continued)

Set out below is a summary of significant unobservable inputs to the valuation of financial instruments together with a quantitative sensitivity analysis as at 30 June 2020 and 31 December 2019:

	Valuation technique	Significant unobservable input	Range	Sensitivity of fair value to the input
Unlisted equity investments	Valuation multiples	Average P/B multiple of peers	0.7–1.2 (31 December 2019:0.9–1.5)	10% increase/decrease in multiple would result in increase/decrease in fair value by RMB83,314,000 (31 December 2019: RMB104,651,000)
		Discount for lack of marketability	30% (31 December 2019:30%)	10% increase/decrease in discount would result in decrease/increase in fair value by RMB35,706,000 (31 December 2019: RMB44,851,000)

The discount for lack of marketability represents the amounts of premiums and discounts determined by the Group that market participants would take into account when pricing the investment.

24 FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS (CONTINUED)

(b) Fair values of financial instruments not carried at fair value

The carrying amounts of the Group's financial instruments carried at amortised cost are not materially different from their fair values as at 30 June 2020 and 31 December 2019, except for the following:

	30 June 2020		31 December 2019

25 TRANSFERS OF FINANCIAL ASSETS

Transferred financial assets that are derecognised in their entirety

At 30 June 2020, the Group endorsed certain bills receivable accepted by banks in Mainland China to certain of its suppliers in order to settle the trade payables due to these suppliers with a carrying amount in aggregate of RMB99,749,000 (31 December 2019: RMB108,178,000) and factored certain bills receivable accepted by banks in Mainland China with a carrying amount of RMB29,805,000 (31 December 2019: nil) (the "Derecognised Bills"). The Derecognised Bills have a maturity from one to six months at the end of the reporting period. In accordance with the Law of Negotiable Instruments in the PRC, the holders of the Derecognised Bills have a right of recourse against the Group if the banks in Mainland China default (the “Continuing Involvement”). In the opinion of the directors, the Group has transferred substantially all risks and rewards relating to the Derecognised Bills. Accordingly, it has derecognised the full lstre7ngnne50.5 (lme)0.5 (c)0.5 uogascd theDis recognised

During this period, under the arrangement of the renewable assets property right trust agreement ("Trust Agreement") with China Resources SDIC Trust Co., Ltd. ("SDIC Trust"), the Group completed two recurring sales with the amount of RMB64,797,000 and RMB217,205,000 whereby it transferred the trade receivables on tariff premium of renewable energy to the Trust Agreement established by SDIC Trust. Under the Trust Agreement, the Group is not exposed to default risks of the trade receivables after the transfer. Subsequent to the transfer, the Group did not retain any rights on the use of the trade receivables, including the sale, transfer or pledge of the trade receivables to any

The tariff of electricity is regulated by the relevant government. The Group prices its other services and products based on the commercial negotiations. The Group has also established its approval process for sales of electricity, purchase of products and services and its financing policy for borrowings. Such approval process and financing policy do not depend on whether the counterparties are state-controlled entities or not.

Having considered the potential for transactions to be impacted by related party relationships, the Group's approval processes and financing policy, and what information would be necessary for an understanding of the potential effect of the relationship on the financial statements, management are of the opinion that the following transactions require disclosure as other state-controlled entities transactions:
